## Invitation

The 54th IEEE conference on Decision and Control will be held Tuesday through Friday, December 15-18, 2015 at the Osaka International Convention Center, Osaka, Japan. The conference will be preceded by technical workshops on Monday, December 14, 2015.

The CDC is recognized as the premier scientific and engineering conference dedicated to the advancement of the theory and practice of systems and control. The CDC annually brings together an international community of researchers and practitioners in the field of automatic control to discuss new research results, perspectives on future developments, and innovative applications relevant to decision making, systems and control, and related areas.

The 54th CDC will feature contributed and invited papers, as well as workshops and may include tutorial sessions.

The IEEE CDC is hosted by the IEEE Control Systems Society (CSS) in cooperation with the Society for Industrial and Applied Mathematics (SIAM), the Institute for Operations Research and the Management Sciences (INFORMS), the Japanese Society for Instrument and Control Engineers (SICE), and the European Control Association (EUCA).

Osaka is the center of the second largest metropolitan area in Japan, formed together with the nearby cities Kobe and Kyoto. The conference venue is located at the heart of the city on the island Nakanoshima. Many tourist sites such as Osaka Castle, the vibrant business and entertainment districts of Umeda and Namba, as well as the Bay Area with various museums and shops can be reached conveniently. To appreciate the historical treasures of Japan, tours can be made to the ancient capitals of Kyoto and Nara, where you may visit temples and shrines from over one thousand years ago.
